Notes to Financial Statements (unaudited)

March 31, 2026

1. Organization and Purpose

The North American Development Bank (NADBank or the Bank) was established on January 1, 1994 by an agreement between the Governments of the United States of America (the United States or U.S.) and the United Mexican States (Mexico) that was signed by their respective Presidents on November 16 and 18, 1993 (the Charter). The Bank was created to finance environmental infrastructure projects in the U.S.-Mexico border region. On March 16, 1994, the President of the United States issued an Executive Order designating the Bank as an international organization under the International Organization Immunities Act.

The Bank is governed by a Board of Directors (the Board) appointed by the two countries. Its operations are subject to certain limitations outlined in the Charter. The geographic jurisdiction is within 100 kilometers north and 300 kilometers south of the U.S.-Mexico border. The primary activities of the Bank are providing loans, grant financing and technical assistance for environmental infrastructure projects approved by the Board, as well as administering grant funding provided by other entities. The Bank is headquartered in San Antonio, Texas, and also has an office in Ciudad Juarez, Chihuahua (Juarez Office).

In December 2022, the Board approved the establishment of the Environment Investment and Capacity Facility (EICF) to hold the Bank's grant funds available for project implementation and technical assistance purposes, including funds provided by third-party donors. With the establishment of the grant facility, the activities of the Bank are conducted through either Ordinary Capital Resources or EICF, which are accounted for separately. All grant and technical assistance activities are reported under the EICF, while all other operations of the Bank are reported under Ordinary Capital Resources.

Grant activity may be financed by the Bank with its own funds or by third parties. In some cases, the Bank receives third-party pass-through grants, meaning that the funds are not drawn down until needed for disbursement. In other cases, the third-party grantors entrust the funds to the Bank, which are held in custody for the programs.

Grant Programs

Community Assistance Program (CAP)

Established in 2011, the CAP provides grants to support the implementation of infrastructure projects in the water and solid waste sectors. Disbursements for CAP are funded with fund balance or with grants from the U.S. Department of State (DOS).

Technical Assistance Program (TAP)

The TAP was established in 2009 to offer technical assistance and training to project sponsors for the purpose of strengthening their financial performance and ensuring the long-term sustainability of their infrastructure. As part of its technical assistance program, the Bank created the Utility Management Institute (UMI), which offers public service managers a professional development program aimed at enhancing their managerial and financial skills. Disbursements for TAP and UMI are funded with fund balance or with grants from DOS.

1. Organization and Purpose (continued)

Water Resiliency Fund (WRF)

Established in August 2025, the WRF provides grants for eligible infrastructure projects that support water conservation and the diversification of supply sources in municipal and agricultural systems. Disbursements for WRF are funded with fund balance.

Border Environment Infrastructure Fund (BEIF)

Through this program, the Bank administers third-party grant funds from U.S. Environmental Protection Agency (EPA) to support the implementation of priority water and wastewater infrastructure projects. Under the terms of the grants, the Bank reviews and submits prospective projects to EPA. EPA approves the projects, which are subsequently certified by the Bank for financing. The Bank also oversees progress and compliance requirements for EPA and receives an allocation of the EPA grant funds for administrative expenses incurred.

Project Development Assistance Program (PDAP)

The Bank administers grant funding from EPA to provide technical assistance to communities for the development of water and wastewater projects that have been prioritized by EPA to receive a BEIF grant. The Bank provides administrative services to identify, contract and manage technical assistance projects.

U.S.-Mexico Environmental Border 2025 Program

The Bank administers grant funding from EPA to support the joint efforts of the two governments to improve the environment and protect the health of residents within 100 kilometers of the U.S.-Mexico border. The Bank provides logistical and administrative services to identify, contract and manage technical assistance projects and workshops funded through the program.

Air Quality Monitoring Fund

Through this fund, the Bank manages funds from the Texas Commission on Environmental Quality (TCEQ) and the Paso del Norte Community Foundation to improve air quality monitoring in the Paso del Norte air basin, formed by the Municipality of Juarez, Chihuahua, El Paso County, Texas, and Dona Ana County, New Mexico.

2. Summary of Significant Accounting Policies

Basis of Presentation and Use of Estimates in Financial Statements

The financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions from fund balance during the reporting period. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

For the purposes of the statements of cash flows, cash and cash equivalents include cash deposits with a financial institution and overnight repurchase agreements. As of March 31, 2026 and December 31, 2025, cash in a demand deposit account with the financial institution totaled \$4,587 and \$51,197, respectively.

Repurchase Agreements

The Bank has entered into repurchase agreements with other financial institutions. Repurchases, which are included in cash and cash equivalents, occur daily involving U.S. government and U.S. agency securities. The underlying securities related to the repurchase transactions are held in the possession of the respective financial institution.

Investment Securities

The Bank classifies EICF investment securities as held-to-maturity (HTM). HTM securities consist of debt securities for which the Bank has the positive intent and ability to hold to maturity and are carried at amortized cost. Interest income is recognized using the effective interest method.

Grant Recognition

Bank-funded grants: Grant commitments are recognized at the date the Bank becomes obligated under the terms of the grant agreements, and associated costs are recognized as incurred. Grant disbursements from fund balance are reflected in the statements of changes in fund balance.

Third-party grants: These grants are funded by third-party grantors and disbursed in accordance with their respective agreements. Third-party grants are recognized upon receipt and reflected on the balance sheets as undisbursed grants until disbursed. Grant receipts and disbursements are reflected in the statements of cash flows. Additional information on undisbursed third-party grants is provided in Note 4.

Grant Operating Expenses and Reimbursements

All operating expenses associated with the EICF are paid through Ordinary Capital Resources and are subject to reimbursement to the Ordinary Capital Resources when incurred for third-party grants. As such, no operating expenses are reported under the EICF.

Income Transfers from Ordinary Capital Resources

As part of the establishment of the EICF, the Board agreed to continue providing support to the EICF by transferring a portion of allocable income from Ordinary Capital Resources. For the three months ended March 31, 2026 and 2025, EICF did not receive transfers from Ordinary Capital Resources.

Taxation

Pursuant to the NADBank Charter, as further implemented in the U.S. under the International Organizations Immunities Act, the Bank, its property, other assets, income and the operations it carries out pursuant to the Charter, are immune from all taxation and customs duties.

Environment Investment and Capacity Facility

Notes to Financial Statements (unaudited)
March 31, 2026

3. Investments

All investments held by the EICF are classified as held-to-maturity securities. The following schedule summarizes investments as of March 31, 2026. EICF held no investment securities as of December 31, 2025.

	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
March 31, 2026				
Held-to-maturity:				
U.S. government securities	\$ 39,842,894	\$ 171	\$ (843)	\$ 39,842,222
Total held-to-maturity investment securities	39,842,894	171	(843)	39,842,222
Total investment securities	<u>\$ 39,842,894</u>	<u>\$ 171</u>	<u>\$ (843)</u>	<u>\$ 39,842,222</u>

The following schedule summarizes unrealized losses and the fair value of investments aggregated by category and the length of time individual securities have been in a continuous unrealized loss position as of March 31, 2026. EICF held no investment securities as of December 31, 2025.

	Less Than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
March 31, 2026						
Held-to-maturity securities	\$ 19,848,212	\$ 843	\$ -	\$ -	\$ 19,848,212	\$ 843
Total temporarily impaired securities	<u>\$ 19,848,212</u>	<u>\$ 843</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 19,848,212</u>	<u>\$ 843</u>

As of March 31, 2026, the EICF's held-to-maturity investment securities consisted of U.S. Treasury securities. Unrealized losses presented in the preceding table were not attributable to credit-related factors; accordingly, no allowance for credit losses was recorded. The EICF held no investment securities as of December 31, 2025.
